

SO4104APG

Oven, Linea, 45 cm, Multitech, Steam range: 20 - 100%, Omnichef, Neptune grey, Component finish: Silver, Vapor Clean

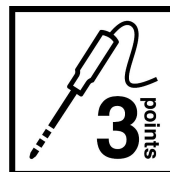

MULTISTEP

The multistep function enhances the ingredients on a professional level, making the dining experience unique and personal. The OMNICHEF oven is able to independently set the best combination of traditional, steam and microwave cooking

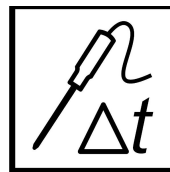

SAMETIME

The Sametime function allows you to prepare a complete menu, with different dishes ready at the same time. The oven will automatically indicate when is the best time to put each dish in the oven.

LOW TEMPERATURE COOKING

Low temperature cooking is a slow and delicate cooking method that allows you to obtain excellent results in cooking meat and fish. Thanks to the multipoint probe it is possible to monitor the temperature in three different points of the ingredient, from the heart to the surface, and cook until the desired value is reached.

DELTA T

Thanks to the presence of the multipoint probe, it is possible to set cooking without thermal stress. The increase in the temperature of the cavity, in fact, increases proportionally with respect to the temperature detected by the probe at the heart of the ingredient.
